Scanning Ballots at the Polls

The Hamilton County Board of Elections has received questions regarding the scanning of ballots at the polling places.

The scanners in the polling place were programmed to provide notice to voters on any contests that were under voted (i.e. when a voter does not vote for all candidates or contests appearing on the ballot). This allows the voter to review the ballot and make changes before casting the ballot. If the voter does not wish to vote for all candidates or contests on the ballot, the voter may cast their ballot "as is" by pressing the Cast Ballot button.
