

# SECURING OHIO'S ELECTIONS

## CERTIFYING OUR VOTING SYSTEMS

Federal and bipartisan state experts test, examine, and certify all voting equipment as secure.

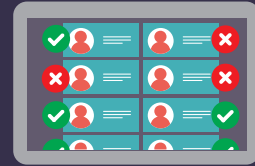

The U.S. Election Assistance Commission

Ohio Board of Voting Systems Examiners

## MAINTAINING CLEAN, ACCURATE & TRANSPARENT VOTER ROLLS

Ohio uses both state and federal SAVE data to ensure only eligible Ohioans are registered to vote.

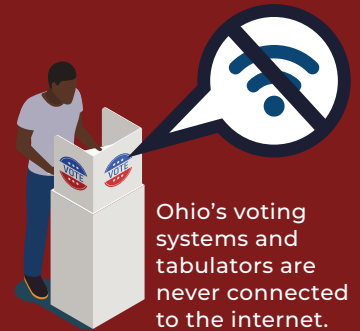

## TESTING OUR VOTING MACHINES

Before voting begins, voting systems and tabulators go through a full battery of logic and accuracy testing by a bipartisan team to ensure they work properly and have not been manipulated.

Regardless of how you vote, every Ohio ballot is recorded in hard-copy on paper.

Ohio's voting systems and tabulators are never connected to the internet.

## SECURING OUR BALLOTS

Each of Ohio's 88 county boards of elections has **TWO REPUBLICAN** members and **TWO DEMOCRATIC** members. Any handling of ballots or voting equipment must take place by a bipartisan team of election officials.

Every Ohioan is required to show a valid, government-issued photo ID at the polls.

Voter ID is verified for absentee voters twice: when ballot requested and ballot returned.

### VoteOhio.gov

At VoteOhio.gov, absentee voters can track the status of their ballot just like you would track a package.

To vote absentee, a ballot **MUST** be requested by a voter. Ohio does not send absentee ballots to every registered voter.

## SAFELY STORING OUR VOTING EQUIPMENT

Ballots and voting systems are all locked with tamper-proof seals and stored behind double-locked doors that may only be accessed when unlocked together by Republican and Democratic election officials.

## AUDITING OUR VOTES FOR ACCURACY

Throughout the election, boards of elections reconcile voter lists and ensure no voters were counted twice. Any attempts to do so are referred for prosecution.

After an election, every county board of elections conducts a post-election audit of the paper record. All audits are open to the public.

STATEWIDE RESULTS SHOW A **99.99% ACCURACY RATE** IN THE 2024 GENERAL ELECTION
